Thank you for choosing Naturopathic Medicine for your medical needs.

This is an explanation of our fees, services, and office policies. Please read it carefully so you understand how our Naturopathic medical office works. Please fill out the intake form before your office visit. This should take you about 15 minutes.

What to expect: Please allow 1.25 to 1.5 hours for your initial visit. A thorough intake will be taken about your medical history. Physical exams will be performed. Please mention anything that you think is relevant. Often diagnostic testing is needed to help assess your medical condition. If available please bring in a copy prior health records (lab tests, imaging, chart notes).

Our fees: The charge for a new patient visit is \$221 and new pediatric patient visit is \$173. A \$70 fee is required to reserve your first visit. This fee will be credited toward your first appointment. The first visit includes: a comprehensive medical history, physical exam, assessment, and initial therapeutic recommendations. The cost does not include laboratory testing or supplements. The total cost for an initial visit may therefore vary from \$221 to \$480. Conventional laboratory testing is often covered by your health insurance.

Return visit rates are as follows: 60 minutes: \$117, 45 minutes: \$94, and 30-minutes: \$71. Return visits are typically 45 to 60 minutes. Refunds requested may incur an administrative fee. **Our office policy is that we require payment at the time of service.**

Dr. Knorr is not contracted directly with any insurance company. Check with your insurance company to see if you have out-of-network benefits and you if have coverage inclusion for Naturopathic Physicians. We will provide you with CPT codes and diagnosis codes upon request. You can then submit them to your insurance company.

Laboratory tests: We do a variety of testing including: conventional blood tests; stool analysis; salivary hormone evaluations; food allergy testing, and heavy metal analysis. Patients are responsible for payment of these tests unless there is insurance coverage. Most insurances cover conventional laboratory analysis (such as blood work and diagnostic imaging).

Supplement refills: Most supplements, herbs and homeopathic remedies need to be taken for several weeks to months in order to effectively influence your body's metabolic and energetic processes. Please phone our office ahead of time to place your order for a refill. We can leave supplements out for you to pick up at your convenience during the week. Our office hours are Monday thru Friday (except Wednesdays) from 9:00 am to 3:00 pm.

Natural medicine works by supporting the body's inherent healing mechanisms. This process is achieved through metabolic and physiological support of your vital force.

It is important that you implement our treatments and recommendations on a daily basis as completely as possible in order to experience the full benefits of Naturopathic Medicine.

***If you need to cancel or change your appointment you need to notify our office 24 hours in advance:
If you do not do so you will incur missed appointment fee of \$70.***

We accept cash, checks, and Visa or Mastercard.
